## OUR PRIVACY POLICY

Protect8 is committed to protecting your privacy. We use the information we collect about you to process orders and to personalize your experience at our website. This privacy statement explains how we gather information and how we protect your privacy.

## YOUR CONSENT

By using our website, you consent to the collection and use of this information by Protect8.

## THE INFORMATION THAT PROTECT8 COLLECTS

**Ordering Online.** When you order, we need to know your name, email address, mailing address, credit card number and expiration date. This allows us to process and fulfill your order and to notify you of your order status.

**Promotions, Online Surveys & Announcements.** If you decide to participate in an online survey, subscribe to a mailing list, enter a contest, or use one of our other promotional features, we may ask for your name, address, email address, and other pertinent information to administer the contest, tabulate survey results, or add you to subscriber lists.

**Browsing.** We may use "cookies" to help process your order and to customize information that we may present to you. A cookie is a small text file that does not personally identify users, although it does identify a user's computer. Cookies do not pose a threat to your computer, and they do not contain viruses. Most Web browsers automatically accept cookies, but you can change this feature in your browser.

## HOW PROTECT8 PROTECTS YOUR INFORMATION

When you place an order, we use a secure server to protect your sensitive information. The secure server software encrypts all entered information before it is sent to us. Your information is used only to process and send orders, bill credit cards, and to contact you if necessary.

## HOW WE USE INFORMATION YOU SUPPLY IN ONLINE ORDER FORMS AND REGISTRATION

Protect8 does not sell or rent customer lists. Protect8 may partner with similar companies to offer special services to our customers, in which case we will share the names and email addresses of our customers with those partners, but we will not release any other information to them about individuals.

Of course, Protect8 may disclose personal information if legally required to do so, if necessary to comply with legal processes served on Protect8, to protect Protect8's rights or property, or to take emergency action to protect the personal safety of users of the Protect8 website or the public.
